

Oklahoma Free Online Genealogy Research Toolkit

If you follow *The Ancestor Hunt*, you know that we specialize in curating and sharing links to **free online genealogy records, collections, and indexes** organized by category and location. You can always explore those through the *By Locations* page — choose a state, then a record type.

But not all valuable resources fit neatly into a single category. Many archives, libraries, museums, and historical societies host **digital collections that go beyond traditional genealogy** — including scrapbooks, letters, diaries, photographs, oral histories, and local community archives.

This **state-specific digital collection toolkit** highlights those broader resources. They're ideal for anyone who wants to move past names and dates to understand the **stories, settings, and local history** that shaped their ancestors' lives. Explore these free online sites — you may be surprised at how much more of your family's world you can uncover.
